EXPERIENCE

Software Engineer

Shohoj Ltd.

November 2023 - Present, Headquarter, Dhaka, Bangladesh

- Spearheaded the development of a Central SMS service and a food-selling system for the Government Railway, optimizing communication and sales processes.
- Single-handedly managed and developed a Ticket Booking system for event management, ensuring seamless event coordination and ticket sales.
- Led the migration of legacy systems to Laravel 10, enhancing overall application security, performance, and maintainability.
- Enhanced database performance by optimizing SQL queries and managing database migrations, resulting in a 30% increase in application speed.
- Compiled and presented comprehensive reports to management, offering insights into project progress, system efficiency, and strategic recommendations.

Software Developer

Business Automation Ltd.

February 2020 - October 2023, Dhaka, Bangladesh

- Contributed to numerous high-profile government projects, delivering customized solutions that met strict requirements and resulted in a 75% increase in client satisfaction.
- Engineered robust applications using PHP, Laravel, CakePHP, JavaScript, Vue.js, jQuery, Python, MySQL, and MongoDB, ensuring high performance and scalability.
- Developed REST APIs for third-party vendors, enabling seamless integration and efficient data exchange across systems.
- Implemented critical third-party APIs for NID and Passport Verification, improving the security and accuracy of identity validation processes.

Software Developer Intern

Dream Array

July 2019 - January 2020, Dhaka, Bangladesh

- Assisted in the development of web applications using PHP and Laravel, gaining foundational experience in back-end development.
- Participated in the integration of third-party services, learning best practices for secure API implementation and data handling.
- Collaborated with the development team in an Agile environment, enhancing teamwork and project management skills.
